Biodiversity and reduced pollution

Remote settlements from the economic and social centers are more difficult to include in bloodstream of events. Therefore, social inclusion opportunities for inhabitants of these settlements are limited. Amateur sport clubs, playing important role in communal lives of villages, are the bases of physical exercises, leisure activities and good health of youth.

Description / **www** reference (!)

The Interreg VI-A IPA Hungary-Serbia programme is implemented within the 2021-2027 European Union financial framework, under the Instrument for Pre-accession Assistance (IPA). On the basis of “shared management system” of the participating countries - Hungary and Serbia, the Programme funds and supports co-operation projects of organizations located in the Programme-eligible area - Hungarian counties Csongrád-Csanád and Bács-Kiskun, and Serbian territories: West Bačka, North Bačka, South Bačka, North Banat, Central Banat, South Banat and Srem.

The Programme helps the development of a stable and co-operating region and the overall quality of life in the border region. It enables economic collaboration of organizations from the two countries, nurtures the common identity, and cultural and historical heritage of the border region, and contributes to its environmental sustainability and safety.
